

CONTROLLERS · KNX SECURE

S-series Push Button, Display, 2-Gang

SKU ASPB-02/D.S · Flush wall mounting

DESCRIPTION

KNX Secure push-button sensor with integrated status display, 2-gang — four pads of room control under a live display.

Keypad Display Series with 4 buttons integrates all basic control functions and has a built-in temperature sensor to detect the local ambient temperature.

The Keypad features a 0.96" color LCD screen with 80x160px resolution to display the function on each button. The display modes include text, icons, or a combination of text and icons. Each button has an RGB LED indication.

Designed for wall installation in a square adapter.
